

Programme

Sunday, October 8, 2006

19:00 Welcome Reception
"Hôtel de France", Versailles

Monday, October 9, 2006

8:45 Welcome
Pr. Elias Fattal, University of Paris-Sud, France
President of the APGI

9:00-9:35
Beyond aesthetic: Innovation with topical silicone excipients
Dr. Isabelle Van Reeth, Dow Corning SA, Belgium

9:35-10:10
Innovative thermoresponse polymers for topical products
Dr. Marc Dolatkhani, PolymerExpert SA, France

10:10-10:50
Coffee Break and Poster

10:50-11:25
Drug and dosage selection in topical dermatological treatment
Dr. Adrian F. Davis, Limeway Pharmaceutical Consultancy, United Kingdom

11:25-12:00
High throughput screening of skin formulations
Pr. Samir Migratori, University of California, USA

12:00-12:35
The mystical effects of dermatological vehicles
Pr. Christian Surber, University of Basel, Switzerland

12:35-14:00
Lunch around the Posters

14:00-14:35
Overcoming skin barrier with ethosomes: New therapies and perspectives
Pr. Elka Toutou, University of Jerusalem, Israel

14:35-15:10
Emulsifier-free emulsions - Attractive formulation options for topical products
Pr. Rolf Daniels, University of Tübingen, Germany

15:10-15:50
Coffee Break and poster

15:50-16:25
Emulsions: An overview of formulation strategies
Dr. Pascal Brochette, Atellane, France

16:25-17:00
Cyclodextrin-based systems for topical delivery
Dr. Amélie Bochet, University of Paris-Sud, France

Tuesday, October 10, 2006

9:00-9:35
Nanotechnologies and the skin: Challenges and prospects
Pr. Jean-Paul Marty, University of Paris-Sud, France

9:35-10:10
Bioadhesive film for dermal and transdermal drug delivery
Dr. Patrizia Santi, University of Parma, Italy

10:10-10:50
Coffee Break and Poster

10:50-11:25
Iontophoretic delivery of dopamine agonists: In vitro-in vivo correlation based on novel compartmental modelling
Pr. Joke Bouwstra, University of Leiden, The Netherlands

11:25-12:00
Microcirculatory network assessment in rosacea using videocapillaroscopy
Pr. Philippe Humbert, University of Besançon, France

12:00-12:35
Topical bioavailability: Stripping and science
Pr. Richard Guy, University of Bath, United Kingdom

12:35-14:00
Lunch around the Posters

14:00-14:35
Cutaneous microdialysis in topical drug delivery and skin physiology
Pr. Véronique Prêat, Catholic University of Louvain (UCL), Belgium

14:35-15:10
Assessment of topical formulation activities using skin imagery
Dr. Anne-Marie Schmitt, Institut de Recherche Pierre Fabre, France

15:10-15:30
Coffee Break and poster

15:30-16:05
Ex vivo viscoelastic characterization of derm and epiderm
M. Michel Terray, Malvern Instruments SA, France

16:05-16:40
Do topical formulations meet dermatologists and patients expectations? A dermatologist point of view
Dr. Philippe Andres, Galderma R&D, France
