

Senior Scientist - Solid Formulation Development

Eurofins CDMO is one of the leading CDMOs in Europe providing high-quality, customized drug development solutions for specialty and biopharma clients. Our focus is to support clients on the earliest phases of their development pathway (from API to the clinical packaging). Its Belgian subsidiary, Eurofins Amatsigroup NV, is based in Ghent, offering a complete drug development package for new drug entities (biological and chemical) up to early clinical phases to third parties to help them in speeding up the development and manufacturing of their drugs.

Job Description

We are looking for a person that reports to the Pharmaceutical Development Manager of Eurofins Amatsigroup NV in expanding the growth of the company.

His/her main responsibilities

- You develop new drug delivery formulations for different applications in the medical field.
- The focus will be on the development of innovative solid formulations, enhancing bioavailability and controlling drug release of difficult-to-formulate drug candidates
- The function consists of carrying out experimental work in a high tech environment together with data interpretation and reporting of the experiments performed.
- You will act as a lead scientist, being member of a project team and coordinating the experimental formulation tasks and the more junior members in the team.

Qualifications

- You have a PhD with scientific orientation (Pharmaceutical Sciences, Bio-Engineering, Science or Chemical Engineering, Industrial Engineering, Chemistry ...) or equivalent experience acquired through professional background.
- You have a strong interest in drug research and development and the associated production technologies.
- You have experience in the development and manufacturing of solid formulations.
- You work accurately, you are technically minded and able to work independently after training in the matter entrusted to you.
- You are flexible.
- You have experience with software such as Word and Excel.

Additional Information

- Work in a fast growing organization.
- A position with responsibility within a dynamic company.
- Personal development through learning on the job and additional external trainings.
- A market oriented compensation.
