## Workshop on Oral Controlled Release

Thursday 6 July 2017, Lille, France

### SPONSORING, EXHIBITING AND ADVERTISING OPPORTUNITIES

Dear Colleague,

The **APGI** (Association de Pharmacie Galénique Industrielle/International Society of Drug Delivery Sciences and Technology) is organizing for the first time a workshop dedicated to **Oral Controlled Release Solid Dosage forms**. This includes matrix systems as well as coated dosage forms, such as tablets, pellets and capsules.

During the one day event, oral and poster presentations from academia and industry, practical demonstrations (in small groups) and an industrial exhibition are foreseen. As practical demonstrations are included, the maximum number of participants is limited to 150. The workshop will be held at the University of Lille, College of Pharmacy, 3 Rue du Professeur Laguesse, 59006 Lille, France.

The entire spectrum, ranging from engineering aspects during the manufacturing process, the portfolio of commercially available excipients allowing to formulate a large variety of drugs, the underlying mass transport mechanisms and physical principles, characterization methods for the key properties of the devices as well as potential pitfalls and hurdles to be overcome during product development will be addressed.

This workshop will give an update on the current state of the art of how to best formulate **oral controlled release solid dosage forms**. An overview on the available excipients, preparation techniques and apparatuses, characterization methods and future strategies will be given by world-wide leading experts in the field including: From **ACADEMIA**: **Prof. R. Bodmeier (Freie Universität Berlin)** on formulation strategies, **Prof. T. De Beer (University of Ghent)** on PAT for tableting, **Prof. J. Dressman (University of Frankfurt)** on bio-relevant release media, **Dr. J. Goole (Free University of Brussels)** on liquid oral controlled release formulations, **Prof. T. Rades (University of Copenhagen)** on advanced physico-chemical characterization techniques, **Prof. J. Siepmann (University of Lille)** on drug release mechanisms and mathematical modelling. From the **INDUSTRY**: **Dr. M. Dadparvar (Evonik)** on customized release, **Dr. A. Rajabi-Siahboomi (Colorcon)** on controlled release matrix tablets and **Dr. Klaus Wening (Gruenthal)** on tamper-resistant dosage forms.

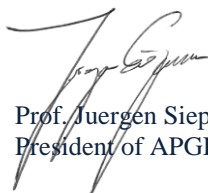

**PRACTICAL DEMONSTRATIONS** (in small groups) will be held on • R&D tablet coating (**ProCepT**)

- Compression (**Gamlen Tableting**) • Hot melt extrusion (**Thermo Fisher Scientific**)
- UV-imaging (**Sirius Analytical**) • Dissolution testing (**SOTAX**) and • Compression Coating (**Medelpharm**).

We would highly appreciate if your company could contribute to the meeting as a sponsor or exhibitor. Please find hereafter details on the various sponsoring/exhibiting possibilities. Your contribution will help to intensify the fruitful exchange between academia and industry and at the same time promote the awareness of your activities in the pharmaceutical field.

Thank you very much in advance and looking forward to associating you with this successful event!

Yours sincerely,

Prof. Juergen Siepmann
