Monday, September 23th, 2019

08:00 - 08:45	REGISTRATION (Centre des Congrès)	
08:45 - 09:00	Dr. Majella Lane (Skin Forum) and Dr. Vincent Faivre (APGI)	
	Welcome	
09:00 - 09:35	Dr. Anne-Marie Pensé-Lhéritier, EBI, France	
OPENING LECTURE	Sensory and sustainable challenges	
SKIN BIOLOGY		
09:35 - 10:10	Dr. Céline Clavaud, L'Oréal, France	
	Skin microbiome signatures in healthy skin across daily life : perspectives for cosmetics	
10:10 - 10:45	Pr. Matthew Hardman, University of Hull, UK	
	Host-microbe interactions in wound healing	
10:45 - 11:15	COFFEE BREAK AND POSTER SESSION	
11:15 – 11:50	Dr. Dominik Imfeld, DSM Ltd, Switzerland	
	Novel anti-aging approaches with bioactive lipids	
11:50 - 12:10	Dr. Emilie Munnier, Université de Tours, France	
	Shielding the skin from biofilm: Spirulina platensis sustainable lipid extracts and their	
	formulation	
12:10 - 12:30	Marcella Sessa-Rivera, University of Barcelona, Spain	
	Release and permeation study of meglumine antimoniate semisolid dosage form for the	
	treatment of cutaneous leishmaniasis	
12:30 - 14:00	LUNCH BREAK	
SKIN PRODUCT DEVELOPMENT: FROM CONCEPT TO FINAL PRODUCT		
14:00 - 14:35	Pr. Jonathan Hadgraft, University of London, UK	
	Formulation science - a half century of progress?	
14:35 - 15:10		
	Dr. Milica Lukic, University of Belgrade, Serbia	
	Dr. Milica Lukic, University of Belgrade, Serbia From emulsions' stability concerns to sensory properties: tools that we use	
15:10 – 15:30	·	
15:10 – 15:30	From emulsions' stability concerns to sensory properties: tools that we use	
15:10 – 15:30	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France	
15:10 – 15:30 15:30 – 16:00	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering	
	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease	
15:30 – 16:00	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION	
15:30 – 16:00	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION Pr. Mauricio Camargo and Dr. Javier Arrieta Escobar, University of Lorraine, France	
15:30 – 16:00 16:00 – 16:35	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION Pr. Mauricio Camargo and Dr. Javier Arrieta Escobar, University of Lorraine, France Integration of Heuristic Knowledge in the Design of a Skin Moisturizer	
15:30 – 16:00 16:00 – 16:35	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION Pr. Mauricio Camargo and Dr. Javier Arrieta Escobar, University of Lorraine, France Integration of Heuristic Knowledge in the Design of a Skin Moisturizer Julie Quartier, University of Geneva, Switzerland	
15:30 – 16:00 16:00 – 16:35	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION Pr. Mauricio Camargo and Dr. Javier Arrieta Escobar, University of Lorraine, France Integration of Heuristic Knowledge in the Design of a Skin Moisturizer Julie Quartier, University of Geneva, Switzerland Polymeric micelle formulations for the cutaneous delivery of sirolimus: a new approach	
15:30 – 16:00 16:00 – 16:35 16:35 – 16:55	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION Pr. Mauricio Camargo and Dr. Javier Arrieta Escobar, University of Lorraine, France Integration of Heuristic Knowledge in the Design of a Skin Moisturizer Julie Quartier, University of Geneva, Switzerland Polymeric micelle formulations for the cutaneous delivery of sirolimus: a new approach for the treatment of facial angiofibromas in tuberous sclerosis	
15:30 – 16:00 16:00 – 16:35 16:35 – 16:55	From emulsions' stability concerns to sensory properties: tools that we use Mohamad Beladjine, Paris-Sud University, France Co-encapsulation of immunosuppressant and anti-inflammatory agents in a Pickering emulsion for the treatment of skin disease COFFEE BREAK AND POSTER SESSION Pr. Mauricio Camargo and Dr. Javier Arrieta Escobar, University of Lorraine, France Integration of Heuristic Knowledge in the Design of a Skin Moisturizer Julie Quartier, University of Geneva, Switzerland Polymeric micelle formulations for the cutaneous delivery of sirolimus: a new approach for the treatment of facial angiofibromas in tuberous sclerosis Dr. Cristina Padula, University of Parma, Italy	

Tuesday, September 24th, 2019

BIOPHYSICAL TOO	RE-OPENNING LS		
	LS		
	Dr. Christian Riethmüller, Centre for Nanotechnology, Germany		
	AFM of the skin barrier		
	Pr. Malcom R. Clench, Sheffield Hallam University, UK		
	MALDI-MSI for skin investigations		
	Claudia Vater, University of Vienna, Austria		
	Cytotoxicity of lecithin-based nanoemulsions on primary skin cell types and penetration		
	monitoring by ATR-FTIR spectroscopy		
	COFFEE BREAK AND POSTER SESSION		
	Dr. Jean Doucet, Novitom, France		
	X-ray based methods for skin investigations		
BIG BATA			
	Pr. Nicola Zamboni, ETH Zurich, Switzerland		
	Metabolomics and transcriptomics for aged skin		
	Marc Atallah, Zettafox – Mazars, France		
	Contribution of data on formulation of skin products		
	LUNCH BREAK		
RHEOLOGY OF SKIN PRODUCTS			
	Pr. Florence Agnely, Paris-Sud University, France		
	Contribution of interfacial rheology for the study of topical emulsions		
	Dr. Pascal Brochette, Atellane, France		
	Rheology of skin products: industrial point of view		
	Sylvia Imbart, EBI, France		
	Relationship between sensory assessment and rheological properties of a sensorial		
	referential		
	COFFEE BREAK AND POSTER SESSION		
	Dr. Valentine Ibekwe, MHRA, UK		
	Regulation point of view		
	Coralie Bellefroid, University of Liège, Belgium		
	Nucleic acids skin penetration enhancement: a combined approach of deformable		
	liposomes and microneedles		
16:55 – 17:15	CONCLUSION
